K Pro UC Aggregate

Description

K Pro UC Aggregate is a washed, oven-dried specially graded aggregate blend. It is recommended for use with K Pro UC Binder to produce both flowable and stiff consistency epoxy grouts.

The unique advantage to K Pro UC Aggregate is that the special blend of aggregates is optimized to increase the flowability of epoxy resins when used at the correct mix ratio. As a result, K Pro UC Binder flows through a grout box, and is easily pumped or tremied in underwater applications.

Packaging

Moisture resistant 50 lb. bag.

Precautions

Read Safety Data Sheet before using.

Technical Information

The following results were achieved under laboratory conditions. Statistical variations will occur based upon mixing methods, temperature & humidity, test methodology, site conditions, curing conditions, application methods, and equipment.

Chemical Analysis

Silicon Dioxide	99.4%
Iron Oxide	.2
Aluminum Oxide	.2
Titanium Dioxide	.1
Calcium Oxide	.01
Magnesium Oxide	Trace
