Concrete Treatments

LEADING THE WAY IN CONCRETE TREATMENTS FOR OVER 50 YEARS!

SureGrout

When you need something that gets the job done right and at an affordable price, SureGrout is the product for you. Our standard formulation meets ASTM 1107, is incredibly versatile because it may be placed in four different mix ratios, is DOT approved throughout the country, and is the industry standard for precision-grade general purpose grouts.

- Meets ASTM C-1107
- DOT Approved
- Pumpable
- Extremely Versatile:
Fluid, Flowable, Plastic & Dry Pack Mixes
- Non-Metallic
- Non-Staining
- Economical

SureGrout 106

Does your job require an air-entrained grout to provide better resistance to the effects of freeze-thaw cycling? SureGrout 106 is our precision grade, air-entrained cementitious grout, which meets not just ASTM C-1107, but also the more demanding requirements of New York State and Vermont.

- Meets ASTM C-1107
- Meets NYS DOT 701-06 & 701-05
- Pumpable
- Non-Metallic
- Non-Staining

SureGrout 5000

If you need a cementitious grout that gains more than 5,000 psi. compressive strength in just 24 hours, then SureGrout 5000 is the ideal product. Chemically engineered to deliver these high strengths when mixed at a fluid mix ratio, SureGrout 5000 has set a new standard for performance.

- Rapid Strength Gain at the Fluid Mix Ratio
 - 24 Hours + 5,000 psi.
 - 7 Days + 8,000 psi.
 - 28 Days + 9,000 psi.
- Meets ASTM C-1107
- Pumpable and Pourable
- Non-Metallic

SureGrout UW

Marine Construction? No problem with SureGrout UW, which is our precision grade, cementitious, underwater grout. Blended with anti-washout and migratory corrosion protection admixtures, SureGrout UW is ideal for the marine environment.

- Meets ASTM C-1107
- Anti Washout Formulation
- Easily Pumpable
- Ideal for Tremie Applications
- Migratory Corrosion Inhibiting Technology
