SureSlip

Description

SureSlip is a natural graphite-based lubricant engineered to allow dowel bars to slide in concrete pavements, and therefore allow for expansion and contraction. SureSlip provides much greater lubricity when compared to greases or oils when used for de-bonding applications.

Directions

Stir SureSlip well before using with a jiffy type mixer on a slow speed ½" drill. Dip bars into SureSlip or apply by brush until proper coverage is achieved on bar. Anchor uncoated end in concrete with SurePoxy 116 or 117 or other approved anchors. Clean up with mineral spirits.

Packaging

1 gallon can (4 per case)
5 gallon pail

Precautions

This is an industrial product, please keep away from children. *Read Safety Data Sheet before using.*

Technical Information

Test results were achieved under laboratory conditions. Statistical variations will occur based upon mixing methods, temperature & humidity, test methodology, site conditions, curing conditions, application methods, and equipment.
