

VaporAid RTU

VaporAid RTU is a ready to use evaporation retarder and finishing aid for concrete that produces a solution that forms a continuous monomolecular film that retards rapid water evaporation. Rather than using water to assist with finishing operations, using VaporAid RTU helps to eliminate crusting, stickiness, and underlying sponginess due to over-watering and the effects of high temperatures, low humidity, direct sunlight, and heavy winds. VaporAid RTU acts effectively as a finishing aid during troweling operations to prevent unevenness and poor surface texture.

ADVANTAGES

- ☑ VOC Compliant
- ☑ No Mixing Required
- ☑ Reduces Plastic Shrinkage Cracks
- ☑ Helps Promote Durable Concrete Slabs
- ☑ USDA
- ☑ Ready-to-Use Formulation
- ☑ LEED Credits
- ☑ Eliminates Stickiness & Sponginess
- ☑ Prevents Crusting
- ☑ Lower Slump Concrete is Easier to Finish
- ☑ Helps Prevent Dusting
- ☑ DOT Approved
- ☑ American Concrete Institute, 305R
- ☑ Ideal with Microsilica Concrete Mixes
- ☑ May Be Used With Any Thinfilm or Krystal Series Products

USES

- ☑ Freshly Placed Concrete
- ☑ Direct Sunlight
- ☑ Heavy Winds
- ☑ High Temperatures
- ☑ Low Humidity

PACKAGING

- ☑ 1-gallon jugs
- ☑ 5-gallon pails
- ☑ 55-gallon drums
- ☑ 275-gallon totes
