SAC

Description

SAC (Sprayer & Applicator Cleaner) is a balanced blend of aromatic hydrocarbons, meeting applicable air pollution requirements. It is designed to clean and flush out sprayers used for applying oil-thinned concrete curing compounds. Due to the unique distillation range, the product does not dry too quickly, and allows sufficient time to clean out the sprayer.

Uses

It is designed to clean and flush out sprayers used for applying oil-thinned concrete curing compounds. Due to the unique distillation range, the product does not dry too quickly, and allows sufficient time to clean out the sprayer.

Directions

Surface Preparation

Empty sprayer of all curing compounds and add approximately ½ gallon of SAC to sprayer. Close lid and shake sprayer up and down so that the cleaner comes into contact with the inside surfaces. Pump up sprayer and spray out contents into their respective container for re-use later.

Packaging

55 gallon drum
5 gallon pail
4/1 gallon case

Leeds

This product may help contribute to Leeds credits MR 5.1 and MR 5.2.

Precautions

Contains AROMATIC HYDROCARBONS. Read Material Safety Data before using. Flammable.
