SureGrout

Description
SureGrout is a precision made, ready to use, non-shrinking, non-metallic grouting compound for use in construction trades and plant maintenance. It is composed of a balanced blend of dry inorganic compounds, special cements, tough, high strength properly graded quartz aggregates, plus other proprietary ingredients.

SureGrout expands at a controlled rate to take up for the volumetric voids created by water evaporating from the mix. This insures high strength and intimate contact with surrounding surfaces and its resultant load-carrying ability.

SureGrout is unique in the fact that its special formulation requires less water to produce a workable mix than all other non-metallic grouts. This means that the important water/cement ratio is lower than other grouts and consequently a denser, stronger grout is produced. At the same time, less water means less shrinkage compensation.

Uses
Structural Columns, Bearing Plates, Anchor Bolts, Precast Columns, Foundation Underpinnings, Prestressed Cables, Precast Joints, Cable Anchorages, Patching Holes & Cracks, Machine Pads, Tilt-Up Panels

Features
Non-raveling
Non-rusting
Water and oil resistant
Non-corrosive
Pumpable
Precision blended
Economical
Non-bleeding
Non-staining

Technical Data
High Strength
Certified independent laboratory tests under field conditions show SureGrout provides high strengths so high, that they exceed design requirements and provide a large margin of safety for field variation. The below tests were placed at normal consistency and not water immersed or fog cured for higher results.

Non-Shrink
All grouts should be non-shrinking to properly carry the intended load. Sand/cement grouts shrink and provide no load carrying ability. In order to compensate for shrinkage, some grouts over-expand, which exerts undesirable upward pressure on base plates.

Pull Out Strength
All grouts should provide high bond strength to anchors and to the concrete in which they are embedded. Sure Grout provides over 35,000 psi when the anchor is placed in tension.

Packaging/Yield
50 lb. moisture resistant, 4 ply bag with polyethylene liner. Each bag yields .45 cu. ft. or 777 in\(^3\) when mixed normally. SureGrout is also available in 3,000 lb. bulk bags that yield 27 ft\(^3\).

Set Time (ASTM C-266)
Initial: 4 hours
Final: 5.5 hours

Set Time (ASTM C-191)
Initial: 4.5 hours
Final: 6.5 hours

Compliances
ASTM C-109 CRD C-227
C-157 C-621
C-827
C-1107

Mixing Ratios- Water per bag of SureGrout

ASTM Designation Quarts
Dry-Pack 2.7 plus 25# Pea Gravel
Plastic 3.65
Flowable 4.0
Fluid 4.5

Pumping
SureGrout can be pumped successfully using a ChemGrout CG-550P Grout pump and mixer or similar pump.
Technical Information
(The following results were achieved under laboratory conditions.)

Shelf Life
One year in original, unopened bags

Storage Conditions
Store dry at 40-95°F

Color
Concrete Gray

Working Time at 72°F
45 minutes

Compressive Strength Test Results, psi.
(ASTM C-109 with 2” cubes.)

Directions
See separate sheet with complete directions titled, Recommended Field Procedures for SureGrout.

Specifications
All grouting shall be done with SureGrout as manufactured by Kaufman Products, Inc. Baltimore, Maryland. The grout shall be mixed according to directions furnished by the manufacturer and installed in accordance with their directions. Perform all grouting work in accordance with the recommendations of the American Concrete Institute for mixing and placement of concrete.

Contractors using this product are encouraged to review "Recommended Field Procedures for SureGrout". Read complete Safety Data Sheet before using.

For professional use only. Not for sale to or use by the general public.

LIMITED WARRANTY We warrant our products to be of good quality and will replace material proved defective. Satisfactory results depend not only upon quality products, but also upon many factors beyond our control. Therefore, except for such replacement, Kaufman Products, Inc makes no warranty or guarantee, expressed or implied, including warranties of fitness or merchantability, respecting its products, and Kaufman Products, Inc shall have no other liability with respect hereto. User shall determine the suitability of the product or the intended use and assume all risks and liability in connection thereto.
