## Certification

This is to certify that Silicure Concentrate is a clear, concentrated, water-soluble, sodium silicate based concrete treatment, manufactured by Kaufman Products, Inc. in Baltimore, Maryland. Silicure Concentrate meets the moisture retention requirements of ASTM C-309 when applied properly to freshly-placed burnished or hard-troweled concrete. Silicure will not prevent adhesion of subsequent floor coverings.

In addition, Silicure Concentrate complies with all aspects of ARRA Section 1605 Buy American Act requirements.

Silicure Concentrate also meets all aspects of the Environmental Protection Agency, Lake Michigan Air Directors Consortium (LADCO), and the Ozone Transport Commission with regard to Volatile Organic Content (VOC) limitations.

I trust this meets with your approval and if I can be of any further assistance, please do not hesitate to contact me.

Sincerely,

KAUFMAN PRODUCTS, INC.

Sincerely,

Alex Kaufman  
President
