

# OUR ACE IN THE HOLE

## SurePlug

**The only hydraulic cement compound available in three different set times of 30 seconds, 1 minute, and 3 minutes.**

SurePlug is a versatile fast setting, non-shrinking, hydraulic cement compound. Ideal for use as both a general patching mortar, as well as for patching cracks, openings, manholes, wells and even stopping water seepage at the junction of floors and walls. Effective under hydrostatic pressure, SurePlug is the perfect solution for leaks.

*Available in 10lb and 50lb units.*
