

# ThinFilm Series

## THE INDUSTRY STANDARD IN WATER-BASED CONCRETE CURING COMPOUNDS

**THE THINFILM SERIES** - Our most popular line of high quality, water-based concrete curing compounds. These products are designed for highways, bridges, sidewalks, curbs and gutters, and commercial construction. All of the products within this line are formulated to meet both ASTM and AASHTO specifications. They're also approved throughout the country by various State Departments of Transportation. ThinFilm is in stock and pre-approved-what are you waiting for? Get your sample today!

**THE KAUFMAN ADVANTAGE** - We've been leading the way since the early 1970s when we invented waterbased concrete curing compounds. Our resin formulations are still the only freeze-thaw formulations on the market. Our products are chemically engineered to resist pigment settling and as a result are easily sprayed.

PRODUCT FORMULATIONS	ASTM C-309 COMPLIANCES	CURRENT PRODUCT APPROVALS
ThinFilm 420	Type I, Classes A and B	AR, CO, DE, DC, FAA, FL, IA, KS, LA, MD, NH, NY/NJ Port Authority, New York City School Construction Authority, RI, SC, TN, VT, WSSC
ThinFilm 420 w/ Red Dye	Type ID, Classes A and B	AR, GA, KS, KY, MA, ME, MI, MT, NC, ND, NH, NJ, NY, OK, PA, TN
ThinFilm 422	Type I, Class A	DE, GA
ThinFilm 422 w/ Red Dye	Type ID, Class A	MI, NJ
ThinFilm 424 w/ Red Dye	Type ID, Class A	VA
ThinFilm 445	Type II, Class A	AL, AR, CO, DE, FAA, FL, GA, IA, IN, KS, KY, LA, MA, MD, ME, MI, MO, MS, MT, NC, ND, NE, NJ, OK, PA, SC, TN, UT, WSSC, WV
ThinFilm 446	Type II, Class A	Corps of Engineers (COE), VA
ThinFilm 447	Type II, Class A	OH
ThinFilm 450	Type II, Classes A and B	CO, CT, DE, FAA, GA, IA, KS, LA, MA, ME, MI, MO, MS, MT, NC, ND, NE, NH, NJ, NY/NJ Port Authority, NY, PA, RI, SC, VT, WSSC, WV
ThinFilm 453	Type II, Classes A and B	Corps of Engineers (COE)
ThinFilm 454	Type II, Classes A and B	PA

TYPE I CLEAR  
TYPE ID CLEAR WITH DYE  
TYPE II WHITE PIGMENT

CLASS A WAX OR RESIN BASED  
CLASS B RESIN ONLY
